NETWORKING RECEPTION

Speakers

Jeremy Browne

CEO - Canning House

From 2010 to 2012, Jeremy served as Minister of State for Latin America in the Foreign and Commonwealth Office. Since leaving elected office, Jeremy has served as the City of London Corporation's Special Representative to the EU, worked as an International Business Ambassador for Aberdeen Standard Investments (abrdn), and advised the environmental investment firm Renewity. He has been CEO of Canning House since 2022.

Cristina Bruce

Head of Corporate Affairs Crop Nutrients - Anglo American

Cristina, Head of Corporate Affairs for Crop Nutrients at Anglo American, brings 11 years of experience with the company. Formerly the Head of International Relations, Cristina supported government relations in the Americas. She served as VP, Corporate Affairs, Permitting, and Environment in Chile. With a diplomatic background and roles at Portland Communications and the United Nations, Cristina has a diverse expertise in South America and the Middle East. She previously chaired the Board of Canning House.

Jonathan Dunn OBE

Head of Climate - Anglo American

Jonathan, responsible for Anglo American's public policy and climate change advocacy, leads UK Government Relations and supports operations in Brazil. Joining in 2018 after 21 years as a British diplomat, including postings in Hanoi and Brazil, he received an OBE for leading the UK Government's efforts during the Rio 2016 Olympic and Paralympic Games. With a geography degree from the University of Sheffield, Jonathan is based in London.

Professor Paul Ekins OBE

Professor of Resources and Environmental Policy - UCL

Paul is a Professor of Resources and Environmental Policy at UCL Institute for Sustainable Resources, University College London. His extensive academic contributions center on sustainable economy conditions and policies, evident in numerous books, articles, and scientific papers. As a member of UNEP's International Resource Panel, he co-authored the report on Minerals Governance (2020) and leads the forthcoming report on financing mineral production for sustainable development. Recognized for environmental policy services, he received an OBE in the UK New Year's Honours List 2015.

Sarah MacKay

Technical Director - ERM

With 30 years of expertise, Sarah, a Hydrogeologist, leads ERM's Water Resource Technical Community. She specialises in water management, corporate reporting of water metrics and risks, and detailed groundwater modeling. Sarah directs impactful water impact assessment programs for national infrastructure projects and addresses long-term legacy issues related to groundwater contamination. Her recent work includes a four-year water reporting program for a global mining company. As a Water Stewardship expert, she collaborates with major industrial companies globally to assess water resource risks under climate change.

Adam Matthews

Chief Responsible Investment Officer - The Church of England Pensions Board

Adam serves as the Chief Responsible Investment Officer at the £3.4 billion Church of England Pensions Board, co-Director of the Investment Team, and founder of the Transition Pathway Initiative (TPI). As Chair of the Global Investor Commission on Mining 2030, he focuses on environmentally responsible mining. Adam also chairs the Mining and Tailings Safety Initiative and co-convenes the effort to establish an Independent Global Tailings Institute. Recognised for his climate change efforts, he received the Canterbury Cross from the Archbishop of Canterbury in 2022.

Natascha Nunes da Cunha

Lead Specialist, Extractive Industries - IDB

Natascha is the Lead Mining Specialist at the Inter-American Development Bank (IDB). With nearly 20 years of experience, she specializes in issues management, stakeholder engagement, and sociopolitical risk analysis, particularly in the intersection of mining and sustainable development. Before joining the IDB in 2016, Natascha was the Corporate Affairs manager at Vale, one of the world's leading mining companies. She holds degrees in International Relations and International Political Economy from the London School of Economics (LSE).

Michael Osborne

Director, Energy, Water and Resources - Arup

Michael is a Director of Arup leading the Energy, Water and Resources business in the North of England. As a Chartered Geologist he is particularly interested in mining and ground water management. He is currently responsible for Arup design of mine infrastructure for the 1,500m deep Woodsmith Polyhalite mine in North Yorkshire and Weardale Lithium a prospective geothermal brine processing plant in County Durham.

Dr Hugo Rainey

Technical Director, Mining - The Biodiversity Consultancy Ltd

Hugo brings over 25 years of global conservation experience, specializing in site-based management. Holding a PhD in Zoology from the University of St Andrews, Scotland, he has advised industry, lenders, and governments over the past decade to enhance outcomes for biodiversity and communities post-development. Hugo managed protected areas in Congo and Cambodia with the Wildlife Conservation Society, leading initiatives such as Gabon's integrated marine protected area network.

Rob Simmons

Investor Relations Manager - Antofagasta

Rob is a geologist with 17 years of experience in the metals and mining sector, working for a range of London listed companies in the areas of investor relations, corporate development and sustainability. Rob recently joined London-listed copper miner Antofagasta PLC as Investor Relations Manager in May 2023. Previously, Rob spent 9 years working in bulk commodities with Ukrainian iron ore miner Ferrexpo PLC, in addition to six years with precious metals miner Avocet Mining PLC, which operated gold mines in West Africa and South East Asia.

Christian Spano

Director, Innovation - International Council on Mining and Minerals (ICMM)

Christian, an economist with an MSc in International Development and a postgraduate diploma in Strategy and Innovation, started in forestry and energy in Latin America, then moved to renewables, power, and the mining industry. His roles at Anglo American, World Economic Forum, and Systemic focused on innovation in socio-economic development, business models, regulation, finance, and impact investing, supporting disruptive technologies in mining and metals. He enjoys cycling, cooking, and family time.

Renier Swart

Executive Head of Technical, Americas - Anglo American

Renier brings 25 years of experience in the mining and refining industry, with diverse roles in operations and corporates across various commodities and geographies. As the Executive Head of Technical - Americas for Anglo American, he is currently based in the United Kingdom. Renier holds a degree in Extractive Metallurgy from the University of Johannesburg and has completed management programs at the Gordon Institute of Business Science, University of Pretoria, Cambridge University, and Oxford University.

Carla Toledo

Operations Officer - International Finance Corporation

Alongside 18+ years in sustainability and benefit sharing in infrastructure and natural resources, Carla holds a bachelor's degree in food science engineering and a master's in development studies from the Institute of Social Studies in The Hague. In her decade at IFC, she designed and implemented revenue management, local governance, and community investment programs in Latin America and Africa. Previously, she evaluated rural development projects at Peru's Ministry of Finance.
